The output of Dakota's mines this mear will nearly reach \$9,000,000.

Only about sixty m n will be employed in the m nes at Bullion this winter. Thirty cardonds of steel rais have as cently been shipped to Pocotello for the Oregon Short line.

The Idano mine has shipped \$200,00 worth of ore this year, \$80, 00 m re are on the dump, and half a million in sight. The In lians are gathering at Cour d'Alene, for the yearly drive of dear, which takes place the latter part of this

Hay is very scarce in the Sawt oth and Galena country. hat little for sale in else being equal. Our views have that section brings \$100 per ton, and will been abundantly corroborated by the no doubt reach \$200 by spring.

The sports of Bellvue are always "heeled." The acquittel of B. F. Perry of the murder of Dave Ray led to a fatal fracas in the streets. Eur.s Buchanan and Edward Hyer discus ed the mate so warmly that Hyer died. Both blazed away at ten paces, but Buchanan's Win-chester was superior to Hyer's "bulldog."

Brave Bear, son-in-law of Sitting Bull, started for the happy hunting grounds by the poison route on the 17th. The deputy marshal has a document, which Brave Bear gave him, which, if it can ever be deciphered, may prove to be a coafe sion. It consists of a number of animals rudely sketched and colored, and underseath er, and eliminate the horns altogether. We make no doubtthat the same amount of attention which has been given to developing the well-formed plate and square quarter would, if directed to the elimination of horns, also ske tched and colored, and underneath quite a lengthy statement in writing whether the writing is intelligible re-

rmins to be investigated. Brave Bear denomnees Sitting Bull in the most emphatic and vulgar ter s, notwith canding his relationship. He had expressed a wish that The Nar ow gauge railroad from Prodic in case he died, to have his body placed in other and more valuable and importto Mono Lake is completed.

> Denver is oing atul ting itself upon the ospects of having a glass facto y. Leadville, Lake, Samm tand Gunnis m, e to be illuminated by elect feity. The mi e of the state have this year paid dividends to the amount of \$2,655,-750.

The "stag" town of Leadville registered 10,000 veters. The population is estimated at 17,000.

The appraised value of the land con demned for a public , ark for Denver is The question, then, for solution is, \$57.668. It c mprises 390 acres. Leady lle has thirty-six fornaces, with a daily capacity of 1,000 tons, and ninety-five stamps of 200 tons daily capacity.

The mer hants' police of D aver are a success. They are uniformed and thoroughly equi ped for every ener, ency, The entire debt of D nier, exclusive of this

uary, approximate \$150,000. The expen-ditmes for the last eleven months exceeded the receipts ty \$27,000. There have been 3,800 mines and pros

### WASHINGTON TERRITORY

Dayton, W. T., a town of 4.0 inhabitant and the present terminus of the Oregon Rai way and Navigation co-pany, is infected with about fifty ases of small is infected with about fifty cases of small pox. The town is completely quarantined. The town of the existence of more than two ty coes of small-pox and varioloid. The Seattle council issued an order prohibit g the landing of passengers there from Tacoms. There have been nine deaths wit in the last fortified, at that place. Except the possibility of applying this principle to the change and final extinction of the horns in a family of cattle, we may find encouragement to make the experiment in the fact So many citizens of Santa Barbara distance been nine deaths wit in the last fortwontinued the use of gas and employed night at that place. Rigid quarantine regulations are in force there, and it is that if the peaple will continue and resume ease will be arrested.

A Methodist churck has been completed

A gang of roughs raided an emigrant train ner Benson at night, hi wout the lights, plunde ed the inmates, and left for other fields. No clue.

and aumorous, and the stople long and peculiarly s footdine. The owners will go into the business more extensively mext season.

If a geft of the millier dellars had been made to the originate of Tulare county, it would not approach in actual value the discovery of the undergreum wat seame which sends a stream excell to 74 to 6 gallons in twenty four bears through the artesian well on Faire and Morton's ranche.

The Grand Central mines, near Tembours to do domesticated cattle are useless, although they were needed by the wild trunciant to the his has turne out \$4.5, 76 in bulk in, from works and extend they were needed by the wild trunciant to the his has been paid, first, the total expense of developing the mine building two hosting works and mill, at a cost of \$300,90 and four dividendments of \$50,000 eth, in king a work and mill, at a cost of \$300,90 and four dividendments of \$5.0, at the Old Gux diment, and offensive weapons are not total of \$5.0, at the Old Gux diment, and offensive weapons are singlely sources of danger and injury. Therefore it would be a good thing to be near the control of the six has been paid, first, the total expense of developing the mine building two hosting works and mill, at a cost of \$300,90 and four dividendments of \$5.0,000 eth, in king is a stream excelled as the work of the wild cattle from which our stock was desting two hosting to be a series of the properties. # The Demand for Polled Cattle-

The present demand for Polled-Angus cattle is unquestionably the recult of their victory at the Paris exposition of 1878, which has resulted emillblains, owns and all kinds of

The Mark Laue Express, referring to the increased American demand for hornless cattle, has the following:

There is, as we have frequently remage ed in this column, a very strong The "American Cattle Journal. are being worked by the U. P. rail oad company, and each one is developing veins of coal of good quality, being superior to Alma, but a little inferior to Rock Spring two years, and especially during the past two years, and especially during the breezers in the United States in favor of hornless cattle. During the past two years, and especially during the present, many shipments of Scotch polled stand cattle have been made to the United States and to Canada; and there would seem to be reasons why the Sootch. seem to be reasons why the Sootch polls should thrive well in Canada. But the movement on the other aide of the Atlantic is not confined to the importation of stock; the question is being raised whether it would not be practicable to "breed the horns off other races at cattle. This subject has been dealt with by the Cincinnati Weekly Commercial in an article from which we take the following passages. "For the past two years we have advocated the superiority of the hurnless over horned cattle, everything else being equal. Our views have been abundantly corroborated by the experience of others. The advantages of the hornless features are all the creations of said deceased, will me the cinding of said deceased, will me the administrator of said deceased, will me the ad tages of the hornless features are so numerous and so evident and real that one wonders that, while Col-
